A fact is true. A myth is false. Read the sentence and circle whether the sentence is a fact or a myth.

Fact **Myth**
Goats like to play.

Fact **Myth**
Goats eat garbage.

Fact **Myth**
Goats like to be alone.

Goats are curious and like to play, run, and jump. They especially like to climb onto rocks and other high objects. They enjoy being with other goats. They do not like to be alone. Some people think that goats eat garbage, even clothing, but this is not true. They learn by feeling and tasting things with their lips.

Draw a line to connect the breed of goat with the correct product.

There are different breeds of goats. Alpine and Nubian goats give us milk. Cashmere goats have warm hair that can be spun into yarn. Boar, Spanish and Pygmy goats are used for meat.
